

I'd like to welcome you to the landing page for Startup Retail NYC. I have developed this program with members of my organization. To date, we have found a software partner for immediate implementation and are in continuous talks with local landlords to use this site as an unofficial MNPI (Municipal Non-Public Information) database for interested parties. You can click the link below to go to the web page, though it does not contain much information. **For details about our program and how it can bring business roaring back on the Upper West Side, I suggest you view the ["District 6 Storefronts"](#) tab on my website.**

Click to continue to the Startup Retail NYC web page:
